

G790i: Treadmill SK7900i Inclusive

Technical Specifications Chart. Summary

Max. user weight	200 kg / 441 lb
Running surface	55 x 155 cm / 21,65 x 61 inch.
Speed	0,5 a 25 Km./h / 0.31 - 15.53 miles/h
Inclination	0 - 15%
Motor	5,0 HP AC
HR monitoring	Pulse sensors and Polar telemetric monitoring
Programs	Manual, customizable user program, preset profiles HRC monitoring program, Man and woman fitness Tests
On-screen info	Speed, distance, time, calories, heart rate, inclination, exercise profile, level
Emergency stop	emergency stop button and automatic stop system (String tension)
Other	Three side security bars. rear platform provides easy access for people with disabilities. Setting, selection and pulse items are yellow for greater visual contrast. Reduced startup speed.. EasyToolbar built into the front handrail. Double cupholder, mp3 jack connection.

Machine's weight: 220 kg / 441 lb

G790i: Treadmill SK7900i Inclusive

- The SK Inclusive Line equipment has been **designed for making the exercise easier both to users with limited mobility and the most experienced ones.** They provide an easy access as well as the quick adjustment.
- **Triple side bars of double-height, along the running surface for a complete user's safety.**
- **Rear platform provides easy access for people with disabilities.**
- **The setting, selection and pulse items are yellow** for greater visual contrast.
- **Startup speed limit reduced up to 0.5 Km/h**
- **Selector with 9 positions** for the third side bar
- Motor: Quiet, reliable 5 HP AC motor
- Lubrication not necessary. Thanks to HST Phenolic Wax The SK Line Treadmills include a revolutionary combination of belt and deck with HST Phenolic wax unique on the market that provides a maintenance free system, and eliminates the need of lubrication during 2 years.
- Easy Toolbar for quick, instant access built into the front handrail, this includes pulse rate contact sensors, one-finger speed and tilt buttons and emergency stop. Emergency quick brake, for a safer exercise.
- Casing: Hard-wearing ABS plastic and frame: Aluminium and sturdy oval section steel tube ST52. Aluminium side section and non-slip rubber footrests
- Polar® telemetry heart rate monitor POLAR hand-grip system and POLAR telemetric system (optional)
- Constant tension: Self adjusting belt tensioning system. Digital Frequency Regulator, continuously adjusts speed to enhance safety and comfort

G790i: Treadmill SK7900i Inclusive

- Band with tough, flexible, slip resistant, absorbent PVC surface. This surface is highly resistant to abrasion, mechanical strength and shock proof and it is also recyclable.
- **Absorber system:** Pro Tronic technology for maximum back and joint protection
- **Large format screen of 19".** Nesk monitors with Dot Matrix and Led technology, include a 19" large format screen, one of the biggest on the market. The large 19" screen, with the touch-sensitive controls, has a completely smooth and flat surface. Durable and easy to clean.
- **Monitor:** The top screen displays the various pre-set exercise profiles and current exertion levels. The bottom alphanumeric screen is used to guide the user when selecting the exercise as well as to display information about the exercise both during the exercise. The 4LED window at the very bottom simultaneously shows information for Time, distance, calories/inclination and pulse rate.
- Programs: Manual, 8 preset profiles with 4 intensity levels each, User Program, Fitness Test for Men and Women, HRC; Distance Program.
- **Flywheel:** 5 kg / 11 lbs balanced flywheel with two fans to cool down the motor
- Speed sensor: a magnetic sensor that guarantees over any inconveniences
- Wrap-around, easy-grip padded handrail for added safety
- Fan: Powerful 2 speed fan
- **Connection for mp3 and built-in speakers,** which let the user listen to their own music while exercising
